To Whom It May Concern

We have known Tony Hopkins for the past 9 years. He is a highly respected member of our community, supporting through sponsorship of his company of both senior and junior sporting teams. Tony also attends the matches to further support the teams and players and is very well known through these gestures of good will.

On recommendation of Tony's professional work ethics, we decided to employ his company to advise us on landscaping our backyard. His designs and vision has not only impressed us but our visitors aswell. The entire time he was on the site he and his workers were polite, prompt and honest. He also left the site neat, tidy and above all safe, as we have two small children.

We are very happy to recommend Tony Hopkins to anyone looking to employ him for any work in the future.
